Microcredentials and modules

Competence Gaps Measurement and Micro-credentials Status: ONLINE

Our training materials bring together three microcredentials and ten modules on ethical and green food labelling. Building on the competence gaps identified across partner countries, they provide learning resources for vocational education and training students, teachers and food-sector professionals.

What are the modules about?

- Microcredential 1: Fundamentals of Ethical Food Labelling
- Microcredential 2: Compliance and Consumer Engagement
- Microcredential 3: Digital Tools and Innovation in Food Labelling

How do I download them?

To download the modules in your language, and the microcredentials templates, you can visit our webpage:
